DOCUMENT No. 1

THE THIRTY-SEVENTH ANNUAL REPORT OF THE BOARD OF ACTUARIES OF THE CIVIL SERVICE RETIREMENT SYSTEM FOR THE FISCAL YEAR ENDED JUNE 30, 1957

LETTER

FROM THE

CHAIRMAN OF THE UNITED STATES CIVIL SERVICE COMMISSION

TRANSMITTING

PURSUANT TO LAW, THE THIRTY-SEVENTH ANNUAL REPORT OF THE BOARD OF ACTUARIES OF THE CIVIL SERVICE RETIREMENT SYSTEM FOR THE FISCAL YEAR ENDED JUNE 30, 1957

JANUARY 9, 1959.—Referred to the Committee on Post Office and Civil Service and ordered to be printed

> UNITED STATES GOVERNMENT PRINTING OFFICE WASHINGTON: 1959

LETTER OF TRANSMITTAL

U.S. Civil Service Commission, Washington, D.C., October 23, 1958.

Hon. RICHARD M. NIXON, Vice President of the United States, United States Senate.

Dear Mr. Vice President: The Commission is pleased to send you herewith the Thirty-seventh Annual Report of the Board of Actuaries of the Civil Service Retirement System, for the fiscal year ended June 30, 1957, submitted in pursuance of section 16 of the Civil Service Retirement Act.

A copy of this report has also been sent to the Speaker of the House of Representatives.

Sincerely yours,

HARRIS ELLSWORTH, Chairman.

LETTER OF SUBMITTAL

NEW YORK, N.Y., August 14, 1958.

U.S. CIVIL SERVICE COMMISSION, Washington, D.C.

Gentlemen: The Board of Actuaries appointed under section 16(g) of the Civil Service Retirement Act, for the retirement of employees in the civil service of the United States, has the honor to submit herewith its 37th annual report on the operation of the fund

herewith its 37th annual report on the operation of the fund.

In accordance with the practice of the Board in the past, the report gives a statement of the appropriation required of the Government under the provisions of the act, as amended to June 30, 1957, on the basis of the estimated membership of the fund as of that date.

Respectfully submitted.

GEO. B. BUCK, R. R. REAGH, OTTO C. RICHTER, Board of Actuaries, Civil Service Retirement System.

THIRTY-SEVENTH ANNUAL REPORT OF THE BOARD OF ACTUARIES OF THE CIVIL SERVICE RETIREMENT SYSTEM

The civil service retirement and disability fund was established in 1920 to furnish retirement benefits to officers and employees of the U.S. Government who become superannuated in governmental service, or incapacitated before attaining old age. The Retirement Act, as amended by title IV of Public Law 854, 84th Congress, makes provision for a Board of Actuaries of the Civil Service Retirement System and in section 16(g) defines the chief duties of the Board to be as follows:

* * * to report annually upon the actuarial status of the system and to furnish its advice and opinion on matters referred to it by the Commission, and it shall have the authority to recommend to the Commission and to the Congress such changes as in the Board's judgment may be deemed necessary to protect the public interest and maintain the system upon a sound financial basis. The Commission shall keep or cause to be kept such records as it deems necessary for making periodic actuarial valuations of the Civil Service Retirement System, and the Board shall make such valuations at intervals of five years, or oftener if deemed necessary by the Commission * * *.

This report, which has been prepared as of June 30, 1957, is the 37th annual report of the Board of Actuaries. The report gives first a summary of the main benefit and contribution provisions of the act as amended to June 30, 1957. This summary is followed by an estimate of the present membership and a table showing the number and amount of annuities in force on June 30, 1957. The report next gives a discussion of the appropriation payable by the Government for the support of the fund. Statements giving the results of a valuation of the liabilities of the fund on account of annuities in force as of June 30, 1957, and the results of the mortality experience of annuitants for the past year are then submitted. In conclusion, the Board gives certain comments on the present operation of the fund.

SUMMARY OF BENEFIT AND CONTRIBUTION PROVISIONS OF THE CIVIL SERVICE RETIREMENT ACT

The following summary states the main benefit and contribution provisions of the act as they were interpreted by the Board of Actuaries. "Average salary" is used to denote the average annual basic salary received by the employee during any 5 consecutive years of creditable service which affords the highest average. "Lump-sum credit" means the unrefunded amount consisting of the retirement deductions made from the employee's basic salary, any sums deposited by the employee covering prior service and interest on such deductions and deposits at 4 percent per annum to December 31, 1947, and 3 percent per annum thereafter, compounded annually to December 31, 1956, or, in the case of an employee who separates before he has 5 years of service, to the date of separation. The lump-sum credit

does not include interest if the service covered thereby aggregates 1 year or less.

BENEFITS

Service retirement

Condition for eligibility.1—Retirement is compulsory at age 70 after

15 years of service.

Retirement is permissible at the option of the employee at age 60 after 30 years of service or at age 62 after 5 years of service. A Member of Congress may retire at age 60 after 10 years of Member

At the option of the employee at age 55 after 30 years of service or upon involuntary separation not due to misconduct or delinquency after 25 years of service or after age 50 and 20 years of service, an immediate annuity is payable equal to the regular annuity reduced by ½ of 1 percent for each full month not in excess of 60, and ½ of 1 percent for each full month in excess of 60 the employee is under age 60.

Amount of benefit.2—The annuity is equal to:

(1) The larger of:

(a) 1½ percent of the employee's average salary multiplied by so

much of his total service as does not exceed 5 years; or

(b) 1 percent of the employee's average salary, plus \$25, multiplied by so much of his total service as does not exceed 5 years; plus

(2) The larger of:

(a) 1% percent of the employee's average salary multiplied by so much of his total service as exceeds 5 years but does not exceed 10

(b) 1 percent of the employee's average salary, plus \$25, multiplied by so much of his total service as exceeds 5 years but does not exceed

10 years; plus

(3) The larger of:

(a) 2 percent of the employee's average salary multiplied by so

much of his total service as exceeds 10 years; or

(b) 1 percent of the employee's average salary, plus \$25, multiplied by so much of his total service as exceeds 10 years.

No annuity is to exceed 80 percent of the employee's average salary.

Disability retirement

Condition for eligibility.—Retirement is permissible upon disability

after 5 years of civilian service.

Amount of benefit.—The benefit is determined by the same method as used for service retirement. The minimum annuity is 40 percent of the employee's average salary but never greater than the annuity he would be entitled to were his service to include the period elapsing between the date of separation and the date he attains age 60 except that this provision does not increase the annuity payable to any survivor.

¹ Certain employees who have rendered 20 years of service in the investigation, apprehension, or detention of persons suspected or convicted of offenses against the criminal laws of the United States are eligible to retire after age 50 and receive an annuity of 2 percent of average salary multiplied by the number of years of service.

1 An additional annuity of \$36 for each year of certain specified service in Alaska or on the Isthmus of Panama is allowed officers and employees who are citizens of the United States. A congressional employee receives an annuity of 2½ percent of average salary for each year of military service and service as a congressional employee, not in excess of 15 years, and an annuity of 2½ percent of average salary for each year of service. A Member of Congress receives an annuity of 2½ percent of average salary for each year of his Member and military service, 2½ percent of such salary for each year of service as a congressional employee, not in excess of 15 years, and an annuity at the regular rates for the remainder of his total service with a maximum of 80 percent of final salary.

Approved For Release 200 1703/02 FC/AFRDP 78-0372 FA00040010004-1

An individual may not receive retirement annuity and disability benefits from the United States employees' compensation fund for the same period but if eligible for both benefits must choose one or the

Deferred service retirement

Condition for eligibility.—Upon separation from service after 5 or more years of civilian service, a deferred annuity is payable.

Amount of benefit.—The deferred annuity begins at age 62 and is

computed by the same method as the regular annuity.

An employee may elect to receive his lump-sum credit in lieu of the deferred annuity.

Lump-sum benefits

Upon separation from active service before completion of 5 years of civilian service, the employee's lump-sum credit shall be paid to

Upon death before 5 years of civilian service or after 5 years of civilian service where there is no survivor entitled to an annuity, the

employee's lump-sum credit is paid to his beneficiary.

Upon the death of a retired employee before the payments of the annuity equal the lump-sum credit the difference is paid, unless there is a survivor entitled to an annuity. Upon termination of all survivor annuities before total annuity payments equal the lump-sum credit, the difference is paid.

Annuities to dependents upon death in active service

Condition for eligibility.—Annuities to dependents are paid upon death of an employee in active service after 5 years of civilian service.

Amount of benefit.—(a) If survived by a widow or dependent

widower, an annuity beginning the first of the month following the death of the employee equal to one-half regular annuity is payable until death or remarriage of widow or widower or until the widower becomes capable of self-support.

(b) If survived by a widow or widower each surviving child who received more than one-half his support from the employee shall be paid an annuity equal to the smallest of (1) 40 percent of the employee's average salary divided by the number of children, (2) \$600, or (3) \$1,800 divided by the number of children.

The annuity payable to a child is terminated upon attainment of age 18, marriage, or death, whichever is earlier, except if such child is incapable of self-support by reason of mental or physical disability his annuity is terminated only upon death, marriage or recovery from

such disability.

(c) If survived by a child or children and there is no widow or widower, each surviving child shall be paid an annuity, equal to the smallest of (1) 50 percent of the employee's average salary divided by the number of children, (2) \$720, or (3) \$2,160 divided by the number of children until attainment of age 18, marriage, or death, whichever is earlier, except if any such child is incapable of self-support by reason of mental or physical disability his annuity is terminated only upon death, marriage or recovery from such disability.

Upon death of the widow or widower, the annuity payable under (b) to a child or children is recomputed and paid as provided in (c).

84011-59-2

Approved For Release 2004/03/102 FC 1A-RDP78-0372 FA090400010004-1

Upon termination of the annuity of a child, the annuities to other children are recomputed as though the child whose annuity was terminated had not survived the employee.

Optional benefits

At retirement a married employee may elect to receive in lieu of his or her regular annuity a reduced annuity payable during the employee's life and an annuity payable to the surviving widow or widower equal to 50 percent of as much of his regular annuity before reduction as he designated. The annuity to the survivor commences on the 1st of the month in which the retired employee dies and ceases upon death or remarriage. The reduction in the employee's annuity exclusive of any portion of the annuity payable on account of the minimum provisions in cases of disability retirement is 2½ percent of so much of the regular annuity as he designated as does not exceed \$2,400, plus 10 percent of any excess over \$2,400.

At service retirement any unmarried employee in good health may elect to receive in lieu of his regular annuity a reduced annuity payable during his life and an annuity payable after his death to a survivor annuitant equal to 50 percent of such reduced annuity. The annuity payable to the employee is reduced by 10 percent of his regular annuity and by an additional 5 percent of the regular annuity for each full 5 years the person designated is younger than the retiring employee but such total reduction shall not exceed 40 percent.

Annuities to dependents upon death after retirement

Upon the death of an annuitant, benefits calculated in the same manner and payable under the same conditions as those granted upon the death of employees in active service are payable to surviving children.

CONTRIBUTIONS

By employees

Employees other than Members of Congress pay 6½ percent of salary commencing October 1, 1956. Members of Congress pay 7½ percent of salary for Member service commencing October 1, 1956.

Any employee may at his option and under regulations prescribed by the Civil Service Commission deposit additional sums in multiples of \$25 but the total may not exceed 10 percent of his basic salary for service rendered since August 1, 1920, for the purchase of an additional annuity.

By Government

Beginning July 1957, each employing agency must contribute amounts equal to the deductions of its employees.

While no direct appropriations are required by law, estimates of amounts needed to finance the fund on a "normal cost plus interest basis" are to be submitted.

ESTIMATED ACTIVE MEMBERSHIP AS OF JUNE 30, 1957

The active membership of the fund as of June 30, 1957, was estimated by the Civil Service Commission to consist of 2,133,000 employees with an annual payroll of \$9,985 million.

Annuitants on the Rolls as of June 30, 1957

The following table summarizes the number and amount of annuities in force on June 30, 1957, as shown by the records of annuitants maintained by the Civil Service Commission. On pages 10 to 15 of this report, the distributions of the number and annuities of annuitants on the roll as of June 30, 1957, by age, are given.

Table 1.—The number and annual annuities of annuitants on the roll as of June 30, 1957

¹ Includes voluntary annuities continued to survivors,

METHOD OF FINANCING PLAN

The Civil Service Retirement Act Amendments of 1956 made certain important changes in the financing of the fund. It raised employees' contributions from 6 percent to 6½ percent beginning October 1, 1956, and provided that each employing agency beginning July 1, 1957, should match the contributions of its employees. Heretofore, any contributions in addition to those made by employees were provided by appropriations by the Government. Under the amended act any amounts required to meet the cost in addition to the contributions of members and employing agencies will need to be provided through appropriations by the Government.

The act does not specifically provide for appropriations by the Government but does state that—

the Commission shall submit estimates of the appropriations necessary to finance the fund on a normal cost plus interest basis and to continue this act in full force and effect.

Under this provision, the total annual payment to the fund should consist of the normal contribution and interest on the deficiency.

The normal contribution rate is the average percentage of the salaries of new employees that is required to be paid into the fund from the time they enter service until they leave service in order to accumulate sufficient funds to pay their benefits. Contributions at the normal contribution rate alone will not support the fund for present employees because there is a deficiency in the fund which arose originally when the fund was established and employees were given credit for their prior service during which no contributions had been made by the Government. This deficiency has grown steadily during the years the fund has operated because benefits have been liberalized, new groups of employees have been added to whom credit for service rendered prior to their admission was allowed, and finally because in certain years the Government appropriations have not been sufficient to meet the normal cost of the fund or have been entirely omitted except for amounts required to cover increases in annuities for annuitants on the roll. If the deficiency is not to increase in the future the full normal contribution should be made and interest on the deficiency paid. Any amount needed to meet these requirements over and above the contributions provided by members and the matching contributions of the employing agencies will need to be met by Government appropriations if the fund is to be financed on the "normal cost plus interest basis" as is anticipated under the amended act.

Annual Appropriation of Government on Basis of Estimated Payroll as of June 30, 1957

In accordance with the procedure followed in previous reports, the Board has prepared the following statement as of June 30, 1957, which gives an estimate of the appropriations required of the Government to support the fund on the basis of the estimated payroll of the membership as of that date.

Table 2.—Estimated annual contributions required to support the civil service retirement and disability fund, prepared as of June 30, 1957

| | Norn | nal cost as— | Deficien | icy cost as- | Total cost as— | | |
|-------------------------------|-------------------------------|-------------------------------|-------------------------------|------------------|-------------------------------|--------------------------------|--|
| Contribution | Percent- age of payroll | Annual amount | Percent- age of payroll | Annual amount | Percent- age of payroll | Annual amount | |
| Total | 13. 50 | \$1, 347. 975, 000 | 5. 39 | \$538, 529, 000 | 18. 89 | \$1,886,504,000 | |
| Payable by employee | 6.50 | 649, 025, 000 | | | 6. 50 | 649, 025, 000 | |
| Payable by employing agencies | 6. 50 . 50 | 649, 025, 000 49, 925, 000 | 5. 39 | 538, 529, 000 | 6. 50 5. 89 | 649, 025, 000 588, 454, 000 | |

The preceding table shows the normal cost to support the amended benefits accruing on account of current service to be equivalent to 13.50 percent of payroll. The employees contribute 6.50 percent toward the normal cost and the employing agencies match their employees' contributions. Therefore, there remains 0.50 percent to be appropriated by the Government. On the basis of the estimated payroll as of June 30, 1957, this represents an annual payment of \$49,925,000. The annual deficiency amount as of June 30, 1957, is equal to 3 percent interest on the estimated deficiency on the basis of the amended benefits. This payment is shown by the table to be \$538,529,000. Therefore, the total annual contribution needed in addition to employees' and employing agencies' contributions on the basis of the estimated payroll as of June 30, 1957, is \$588,454,000. The amount of the annual deficiency payment is greater than that shown in table 2 of last year's report due primarily to the fact that insufficient contributions were made by the Government during the year. Furthermore no direct appropriation was made by the Government for the year 1958. This means that the deficiency next year will be greater by the amount of the deficiency is therefore increasing at a rapid rate, and until the full normal contribution and the interest on the deficiency. The deficiency is therefore increasing at a rapid rate, and until the full normal cost and interest on the deficiency is met, the need for an increasing annual appropriation may be expected.

Liabilities of Fund on Account of Annuitants on the Roll as of June 30, 1957

In accordance with its usual practice, the Board of Actuaries is presenting below the results of a valuation of the liabilities of the fund on account of annuitants on the roll. This valuation, prepared as of June 30, 1957, was based on the mortality tables included in the 34th annual report of the Board. A 3 percent interest rate was used.

Table 3.—Liabilities on account of annuitants as of June 30, 1957

| Group | Present value of benefits to annuitants on the roll | | | | | |
|--|---|-------------------------------|---|--|--|--|
| | Regular annuitles | Voluntary annuities | Total annuities | | | |
| Retired on account of age and voluntary and involuntary separation. Retired on account of disability. Reversionary anulities to designated beneficiaries 1 | \$3, 346, 888, 000 851, 017, 000 594, 009, 000 681, 156, 000 | \$12, 834, 000 1, 282, 000 | \$3, 359, 722, 000 852, 299, 000 594, 009, 000 681, 156, 000 | | | |
| Total | 5, 473, 070, 000 | 14, 116, 000 | 5, 487, 186, 000 | | | |

¹ Includes voluntary annuities.

In the 36th annual report of the Board, the liabilities on account of annuities payable to annuitants on the roll as of June 30, 1956, were shown to be \$4,551,045,000, as compared with \$5,487,186,000 as of June 30, 1957, or an increase in liabilities of more than \$936 million during the year ended June 30, 1957.

SUMMARY OF MORTALITY EXPERIENCE OF ANNUITANTS FOR THE YEAR ENDED JUNE 30, 1957

For the purpose of making a check of the mortality tables adopted for annuitants, the actual and expected number of terminations and of annuities canceled by terminations during the past year were compared separately for men and women, who had retired on account of age, or voluntary or involuntary separation from service, and for men and women who had retired on account of disability. The following table summarizes the results of the comparison.

Table 4.—Summary of the comparison of the actual and expected terminations among annuitants July 1, 1956, to June 30, 1957

| Group | Numl | per of termin | ations | Monthly annuities terminated | | | |
|--|-------------------------|-------------------------------------|---------------------------|------------------------------|---------------------------|-----------------------|--|
| | Actual | Expected | Difference | Actual | Expected | Difference | |
| Employee annuitants retired on account of age, voluntary or involuntary separation: Men. Employee annuitants retired an account of disability: Men. | 8, 333 990 3, 965 | 8, 777. 6 1, 055. 1 4, 407. 9 | +444.6 +65.1 +442.9 | \$1, 208, 646 115, 195 | \$1, 305, 231 124, 333 | +\$96, 585 +9, 138 | |
| Women | 757 | 810.3 | +53.3 | 83 | (1) (1) | (3) | |

¹ Amounts not computed.

A check of the tables used for widows was also prepared this year. The following table summarizes the comparison.

Table 5.—Summary of the comparisons of the actual and expected terminations among survivor annuitants July 1, 1956, to June 30, 1957

| Group | Numl | er of termin | ations | Monthly annuities terminated | | | |
|---|----------------------|-------------------------------|-------------------------|---------------------------------|---------------------------------|---------------------------------|--|
| | Actual | Expected | Difference | Actual | Expected | Difference | |
| Deaths: Widows of deceased employees Widows of deceased annuitants. Remarrlages: Widows of deceased employees | 338 1, 163 515 | 274. 9 1, 081. 9 567. 8 | -63.1 -81.1 +52.8 | \$22, 442 65, 449 22, 810 | \$17, 922 60, 206 29, 791 | -\$4, 520 -5, 243 +6, 981 | |
| Widows of deceased an- nuitants | 84 | 147.3 | +63.3 | 5, 008 | 10, 893 | +5,886 | |

COMMENTS ON ANNUITANTS' EXPERIENCE

The ratio of the actual number of terminations to the expected number, and the ratio of the amount of actual annuities canceled to the expected amount for the past year compared with the corresponding items for the year ended June 30, 1956, are as follows:

Approved For Release 200 1/0 3/02 SENACE DE 78-037212000 40 00 1000 4-1

Table 6.—Comparison of mortality and termination experience for years ended June 30, 1956 and 1957

| Group | terminati | number of ons to ex- year ended | Ratio of amount of an- nuities canceled to expected amounts for year ended June 30 | | |
|---|-----------------------------------|---------------------------------------|---|------------------------|--|
| | 1956 | 1957 | 1956 | 1957 | |
| Employee annuitants retired on account of age, voluntary or involuntary separations: Men | 0. 971 . 945 . 890 . 892 | 0.949 .938 .900 .934 | 0. 961 . 963 (1) (1) | 0. 926 . 927 (1) | |

¹ Not computed.

The foregoing ratios show that the actual death rate during the year ended June 30, 1957, among both men and women retired on account of age or voluntary or involuntary separation was less than that expected and that there was a greater divergence than in the previous year. More conservative mortality tables for service pensioners are to be recommended for use in the pending actuarial valuation of the system.

Although the mortality and recovery experience among disabled annuitants during 1957 was closer to that expected than during the previous year, the ratios show that the present tables for disabled annuitants are not proving conservative. More conservative tables will be recommended also for this class of annuitants.

Conclusion

Under the amended Retirement Act the Board of Actuaries is required to report annually on the actuarial status of the fund. As pointed out in previous reports, the actuarial status of the fund may be determined only through an actuarial valuation of its prospective liabilities and assets. A valuation to be prepared as of September 30, 1958, is now being planned. In this connection the basic tables on which the last valuation was prepared are being reviewed to determine the changes necessary to furnish a sound basis for the valuation. As mentioned above, new mortality assumptions will be required in view of the trend toward lower, mortality among retired employees.

Pending the preparation of a valuation, the Board recommends that appropriations be made based on the estimated requirements of the fund and that direct appropriations be made equal to the amounts which with employee contributions and the matching contributions of the employing agencies will meet the "normal cost plus interest." Under the amended act this method of financing is anticipated. If less than this amount is provided, the deficit will continue to increase and the system cannot be maintained on a sound financial basis.

Approved Fan Rale as @ 2004/03/02 FROP 78-0372 FA090400010004-1

SUMMARY OF TABULATIONS OF ANNUITANTS' DATA

The following tables give for men and women separately the number of annuitants and their annuities as of June 30, 1957, distributed by age as used as a basis for the valuation.
